Monday 15th September 2025

Dear Parents and Carers,

In our Science lessons so far this year, we have been learning about rocks. For one of our lessons, in the coming weeks, we will be using food to explore how sedimentary, metamorphic and igneous rocks are formed. This will include using biscuits, marshmallows, chocolate, fondant icing, vanilla yoghurt and chocolate mousse. At the end of the session, we normally give children the opportunity to taste a small part of their creations too.

Please can you sign and return this slip to myself by **Monday 22nd September** at the latest, to let me know if you give permission for your child to taste a small part of the food at the end of the session.

If your child has any allergies or intolerances, please do let us know. This includes handling of the food, as well as ingestion.

Any child without written consent will not be able to touch or taste the food during the session.

If you have any questions, then please do not hesitate to get in touch.

Yours sincerely,

Miss Crockett

Chestnut Class Science Session

Tick one:

- ☐ I give permission for my child to touch and taste the food.
- ☐ My child cannot touch and taste the food.
