

Year 1

Enriching Learning

Autumn Term 2024-2025

The following links will help you to work on some of the key learning for Maths and English this term. With an adult's help, you can choose which areas you most need to practise and when and how long you spend on them. If you are very confident, you should try the diving activities. If you need to develop your confidence, try the swimming activities. If you think you need to develop skills, have a go at the paddling activities.

Maths Focus: Counting

Paddling:

<https://www.nctm.org/Classroom-Resources/Illuminations/Interactives/Oktas-Rescue/>

Swimming:

<https://www.topmarks.co.uk/learning-to-count/blast-off>

Diving:

https://mathsframe.co.uk/en/resources/resource/37/placing_numbers_on_a_number_line

English Focus: Tricky Words

Paddling:

Reading Reminder: This term, we would like you to try and read for 5-10 minutes every day. You can read by yourself, or you can read with an adult. Ask them to record your reading in your reading diary. Remember that reading two books on the same day still counts as one night's reading! 😊

The following links will help you to develop your understanding of our topic this term and with topic homework activities.

Topic Focus: Kings and Queens

[Queen Victoria](#)

[Queen Elizabeth II](#)

[Top 10 facts about castles](#)

[Horrible Histories song about kings and queens](#)

[Video about castles](#)

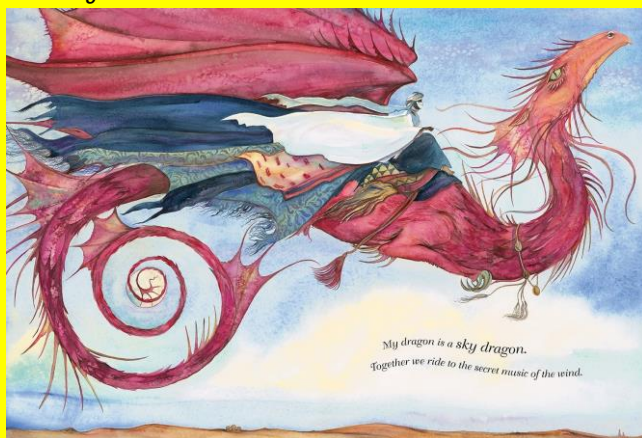

[The Christmas Story](#)

Each week, you need to choose one of these activities to complete and hand in on Wednesday in your homework book. Make sure that you choose a range of activities (some from each box) during the term.

English Activities:

Write a 'Top 10 Facts' page all about you or something that you are interested in.

Think of as many adjectives as you can to describe this dragon:

Write a recount of a day in the life of a king or queen. What would they eat for breakfast? What places might they visit? What else might they get up to in the day?

Write a letter to Father Christmas. What questions would you like to ask him about his job?

Maths Activities:

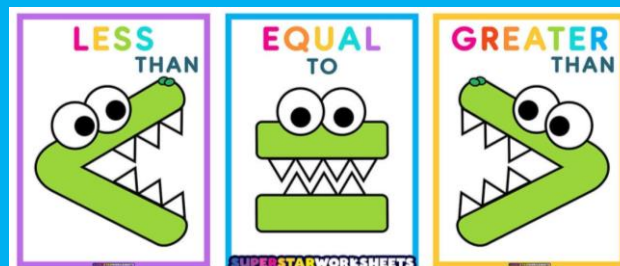

Find a fun way to represent the numbers 11 – 20. You could take a photo of objects or draw pictures.

What Maths can you do with these jellybeans? Can you count them? Sort them? Group them in twos?

Can you recall all of the number bonds that add up to make 10?

Use the symbols $<$ / $>$ / $=$ to compare some numbers between 1 – 20.

Topic Activities:

Choose a king or queen from British history and draw or paint a portrait of them.

Make some number cards to hide in your garden and write some clues of where to find them. Once you have set them up, see if a family member can follow your clues to find all the numbers! They could then set up a treasure hunt for you!

Have a look at the different types of technology you have at home. Make a list of them and think about why they are useful.

Find out how Christmas is celebrated around the world. Are there any traditions that you would like to try?

Personalised homework: Personalised homework is all about what you want to show us. Think about our topic (Kings and Queens) and the events that are coming up, such as Advent. Then, create something to bring in and show, such as: a model or piece of creative art. You can use any materials. Have fun! ☺
