

# The Black Hat

Imagine that on returning to his house, the boy discovers another magical creature sleeping in his bedside drawer. What type of creature could it be? Could it be a combination of two or more different creatures? What different colours and patterns could it have? How does it move? What noise does it make?

**Draw and label your creature.** The labels should answer the above questions. Make sure that you use thoughtful adjectives in your labels. There are some on the word search page that you might like to use.

## My Creature
